

The Mother's Blossoms
International Pre-School

Dear Parents,

Below is the link for today's story and a few interaction suggestions following that.
Note - We recommend you watching the video once before watching it with your child.

<https://www.youtube.com/watch?v=75NQK-Sm1YY&t=10s>

Story Name: **The Very Hungry Caterpillar**

Conversation suggestions after watching the Story:

- 1) Work with children to recollect all fruits that the Caterpillar eat.
- 2) Work through the different days referring to the story.
- 3) Talk about the number of fruits.
- 4) Discuss colours of different fruits they can guess.
- 5) You can make many more such questions related to story.

Activity after the story time:

1. Let your child tell you the story later sometime in her/his own words (try not to interrupt or make many corrections and listen with complete attention, interest and enthusiasm).
2. Allow your child to extend the story about what could have happened next beyond the story line.
3. Ask your child to make a drawing or painting based on the story (no suggestions, let them draw to the best of their recollection and genuinely appreciate the outcome).

We would love to hear your feedback and how did children like the whole experience.
Please feel free to contact us if you have any questions.

Regards,

The Mother's Blossoms International Pre-School
